

# SMART COMMUNITY MONITORING

What's happening in your street?

## HOW DOES IT WORK?

Cameras are programmed to detect exceptions.

We verify the alerts.

Responders and Community  
are dispatched.  
Smart Apps used.

## WHO INSTALLS THE CAMERAS AND SOFTWARE?

- Verifier **refers accredited installation companies** in order to ensure the desired results.
- A nominal license fee per License Plate camera is included in the monitoring fee.
- Your required internet breakout capacity is dependent on the system and number of cameras.

## WHY USE VERIFIER?

- Verifier provides an invaluable preventative **early warning** service.
- Our LPR system talks to **hot list** databases in real-time.
- **Clean data** is maintained and shared with all of our clients and SAPS.
- We are the **leaders** in the field, with the results to prove this.
- Verifier is an **independent** monitoring service with strong links to the Authorities and Community structures.
- Our centralised specialist service is **cost effective**.
- We ensure **performance** of your local Security Service Provider.
- We further mitigate the risk of site security **collusion** with organised crime syndicates.
- We arrange **clearances and training** on localised investigations for your Security Management.
- Systems are tailor made to match your requirements and budget – **various offerings** available.

Verifier Control

@Response We're live streaming cams from the street. Will advise

Sam\_36 Syringa

@SOS Just been robbed in my driveway. CA38X-XXX. One on foot

John\_38 Syringa

@Sam\_36 Syringa I'm at home. Will be right over

Crime Watch

@Response CA38X-XXX reported involved in robbery @Syringa

Mike (Watch Captain)

@Verifier Standing by with patrollers in the green belt...

James\_Centre Security

@Ops\_Alerts CA38X-XXX see, leaving area. Giving chase.

## FIRSTLY, WE RECEIVE REAL-TIME ALERTS FROM YOUR STREET

Verifier software continuously monitors alerts from your street whether from License Plate Recognition, Video analytics systems or Smart Apps.

## THEN, OUR TRAINED OPERATORS VERIFY THE ALERT

Alerts are then sent to our trained operators for verification. Any positive alerts are then managed according to a strict pre-determined protocol.

## FINALLY, WE DISPATCH COMMUNITY RESPONDERS

Once an alert has been verified, our operator will immediately dispatch responders to your street and issue a general alert via your Smart App.
