

Who's Watching Your Gate?

Cost-effective protection for your Front Gate

VeriGate Monitoring
Real Peace of Mind

VeriGate Monitoring. Real Peace of Mind.

Forcing gates has become an all too frequent occurrence in recent years. There is a widespread fear of this intrusion method.

A recent research sample from ONE armed response service-provider indicated that in ONE suburb alone over 60 gates were left/jammed open in ONE month.

The total incident number is likely to be significantly higher.

Should a pedestrian or driveway gate be accidentally left open or forced by a crow-bar gang, Verifier would receive a video alarm and immediately respond as per an agreed protocol.

This service is already proving to be invaluable to clients.

Affordability Factor

Verifier has developed this product to offer prospective clients access to Verifier's services at an incredibly affordable rate.

Simple Integration

This is a basic service which involves the VeriGate receiver and one or two cameras focused directly on a pedestrian/driveway gate or garage door.

Innovative Product

VeriGate utilises cutting-edge technology from trusted manufacturers to deliver a high-quality end product.

Costing Structures:

Residential:
R295 ex VAT per month

Commercial/Estates:
R625 ex VAT per month

The industry standard of up to 5 activations per month will apply (soft cap)

Equipment Required:

Requires a CCTV system incorporating an off-site ready recorder.

VeriGate alarm sensor to be fitted to your gate or garage door motor.

May require fitment of a Verifier GSM radio – airtime is an additional R45 ex VAT/month.
